ASHLEY SELLERS,
Assistant War Food Administrator.

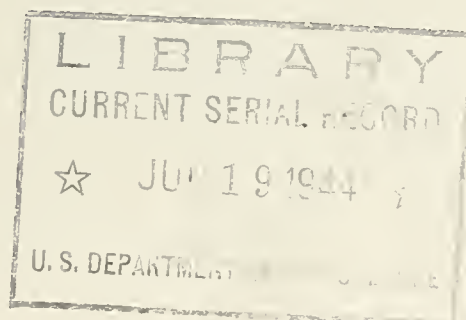

War Food Administration,
Summary to WFO 86 Amendment 1.

The War Food Administration has amended War Food Order No. 86 to remove provisions requiring the use of additional rosin in the manufacture of soap. The amendment is effective June 14, 1944.

When WFO 86 was issued last November rosin was in good supply and its use as an extender was needed to relieve a tight situation in soap making fats. Now, however, the fat situation has improved sufficiently to maintain soap production at current levels without the increased rosin content, while rosin in-

ventories have been considerably reduced as a result of low production and increased consumption for many purposes.

The soap inventory restrictions imposed by War Food Order No. 86 on industrial uses will be maintained.

GROVER B. HILL,

First Assistant

War Food Administrator.

War Food Administration,
Summary to WFO-86 Termination.

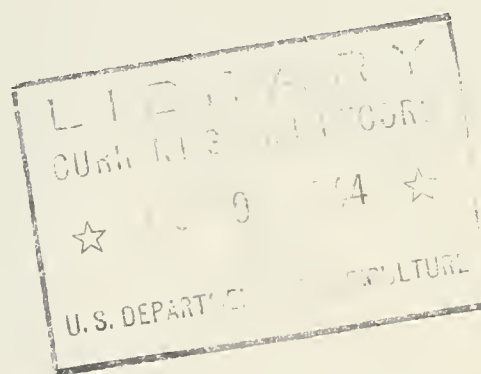

The War Food Administration has ter-
minated War Food Order No. 86 which
has limited the soap inventories of in-

dustrial users to a 45 days supply since
October 18, 1943. The termination order
is effective August 25, 1944.

In addition to limiting industrial soap
inventories, the order as originally drawn

prescribed adjusted formulas which re-
quired the use of rosin in soap manu-
facture. These provisions, however,
were removed from the order in an
amendment issued last June.
